FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and all applicable, adopted rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

1. 28 Texas Administrative Code §133.307 sets out the procedures for health care providers to pursue a medical fee dispute.
2. 28 Texas Administrative Code §134.401(c)(5)(A), effective August 1, 1997, 22 TexReg 6264, requires that when "Trauma (ICD-9 codes 800.0-959.50)" diagnosis codes are listed as the primary diagnosis, reimbursement for the entire admission shall be at a fair and reasonable rate.
3. 28 Texas Administrative Code §134.1, effective May 16, 2002, 27 TexReg 4047, requires that "Reimbursement for services not identified in an established fee guideline shall be reimbursed at fair and reasonable rates as described in the Texas Labor Code §413.011 until such period that specific fee guidelines are established by the commission."
4. Texas Labor Code §413.011(d) requires that fee guidelines must be fair and reasonable and designed to ensure the quality of medical care and to achieve effective medical cost control. The guidelines may not provide for payment of a fee in excess of the fee charged for similar treatment of an injured individual of an equivalent standard of living and paid by that individual or by someone acting on that individual's behalf. It further requires that the Division consider the increased security of payment afforded by the Act in establishing the fee guidelines.
5. This request for medical fee dispute resolution was received by the Division on April 17, 2007.
6. The services in dispute were reduced/denied by the respondent with the following reason codes:

Explanation of benefits dated May 16, 2006

- W10-No maximum allowable defined by fee guideline. Reimbursement made based on insurance carrier fair and reasonable reimbursement methodology.
- 97-Payment is included in the allowance for another service/procedure.
- D20-Claim/Service missing service/product information. Pls provide copy of implant invoices.

Findings

1. This dispute relates to inpatient surgical services provided in a hospital setting with reimbursement subject to the provisions of former Division rule at 28 TAC §134.401(c)(5)(A), which requires that when "Trauma (ICD-9 codes 800.0-959.50)" diagnosis codes are listed as the primary diagnosis, reimbursement for the entire admission shall be at a fair and reasonable rate. Review of box 67 on the hospital bill finds that the principle diagnosis code is listed as 821.00. The Division therefore determines that this inpatient admission shall be reimbursed at a fair and reasonable rate pursuant to Division rule at 28 Texas Administrative Code §134.1 and Texas Labor Code §413.011(d).
2. 28 Texas Administrative Code §133.307(c)(2)(F)(iv), effective December 31, 2006, 31 TexReg 10314, applicable to disputes filed on or after January 15, 2007, requires that the request shall include a position statement of the disputed issue(s) that shall include "how the submitted documentation supports the requestor position for each disputed fee issue." Review of the requestor's documentation finds that the requestor has not discussed how the submitted documentation supports the requestor position for each disputed fee issue. The Division concludes that the requestor has not met the requirements of 28 Texas Administrative Code §133.307(c)(2)(F)(iv).
3. 28 Texas Administrative Code §133.307(c)(2)(G), effective December 31, 2006, 31 TexReg 10314, applicable to disputes filed on or after January 15, 2007, requires the requestor to provide "documentation that discusses, demonstrates, and justifies that the amount being sought is a fair and reasonable rate of reimbursement in accordance with §134.1 of this title (relating to Medical Reimbursement) when the dispute involves health care for which the Division has not established a maximum allowable reimbursement (MAR), as applicable." Review of the submitted documentation finds that:
 - The requestor's position statement states that "The expected reimbursement is based upon the hospital's fair and reasonable charges, usual and customary which is in the amount of its billed charges of \$47,727.13."
 - The requestor did not provide documentation to demonstrate how it determined its usual and customary charges for the disputed services.
 - The requestor did not submit documentation to support that the payment amount being sought is a fair and reasonable rate of reimbursement.
 - The Division has previously found that a reimbursement methodology based upon payment of a hospital's billed charges, or a percentage of billed charges, does not produce an acceptable payment amount. This methodology was considered and rejected by the Division in the *Acute Care Inpatient Hospital Fee Guideline* adoption preamble which states at 22 Texas Register 6276 (July 4, 1997) that:

“A discount from billed charges was another method of reimbursement which was considered. Again, this method was found unacceptable because it leaves the ultimate reimbursement in the control of the hospital, thus defeating the statutory objective of effective cost control and the statutory standard not to pay more than for similar treatment of an injured individual of an equivalent standard of living. It also provides no incentive to contain medical costs, would be administratively burdensome for the Commission and system participants, and would require additional Commission resources.”

- The requestor did not submit nationally recognized published studies or documentation of values assigned for services involving similar work and resource commitments to support the requested reimbursement.
- The requestor does not discuss or explain how payment of the requested amount would satisfy the requirements of Division rule at 28 TAC §134.1.

The request for additional reimbursement is not supported. Thorough review of the documentation submitted by the requestor finds that the requestor has not demonstrated or justified that payment of the amount sought would be a fair and reasonable rate of reimbursement for the services in dispute. Additional payment cannot be recommended.

Conclusion

The Division would like to emphasize that individual medical fee dispute outcomes rely upon the evidence presented by the requestor and respondent during dispute resolution, and the thorough review and consideration of that evidence. After thorough review and consideration of all the evidence presented by the parties to this dispute, it is determined that the submitted documentation does not support the reimbursement amount sought by the requestor. The Division concludes that this dispute was not filed in the form and manner prescribed under 28 Texas Administrative Code §133.307(c)(2)(F)(iv) and §133.307(c)(2)(G). The Division further concludes that the requestor failed to support its position that additional reimbursement is due. As a result, the amount ordered is \$0.00.

ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code §413.031, the Division has determined that the requestor is entitled to \$0.00 reimbursement for the services in dispute.
